## INCREASE EFFICIENCY AND PRODUCTION WITH YARDHAND CONVEYORS

The demands of material handling require a compact and versatile conveyor. MULTITEK YARDHAND Conveyors are engineered to provide years of low maintenance and rugged dependability. These heavy-duty belt or bar slat conveyors enable you to smoothly and efficiently place material where you need it. Quick couple the YARDHAND to your hydraulic equipment or select the optional engine driven hydraulic package to provide maximum power and lift for your operation.

**THE IDEAL CONVEYOR FOR SMALL, MEDIUM AND LARGE SIZE OPERATIONS WHERE RELIABLE CONVEYOR OR LOADING PRODUCTION IS A PRIORITY.**

YARDHAND Conveyors are available with 20', 30' and 35' long troughs. The available optional 8 hp or 10 hp air-cooled engine powers the hydraulically driven belt and adjustable lift to loading heights from small trucks to semi-trailers. YARDHAND Conveyors come with reinforced double bottom in the wood receiving area. Simple hydraulic adjustments allow the operator to change conveyor height and belt or bar slat direction.

- In-yard mobility with removable reverse direction hitch or optional pintle hitch.
- 20', 30' & 35' conveyors w/30" & 36" belt widths (TBC models only), and hydraulic lifts (all models).
- Hydraulic cylinder raises conveyor for operation, then lowers conveyor for transport.
- Pins are provided for operating height positions (all models).

**COC10 Clean Out Conveyor**

**TBC Head Pulley & Scraper**

**Power Pack Option**

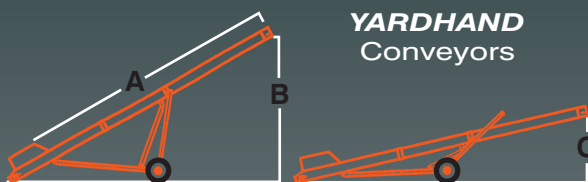

Optional engine driven hydraulic package. (Shown with hydraulic pump valve & reservoir) Gas, Diesel or Electric.

**FWC with Clean Out Pan**

**HD Hydraulic Drive Standard**
